Purely Business!

The columns of a newspaper represent a small value. No publisher can afford to give advertising "outlets" free any more than a merchant can give his counter free gifts or dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade and advertisements should be paid for, no matter in what part of the paper they appear.

HECHINGER & CO.'S FALL STYLES

Are Shown in Scores of Handsome New Cuts!

Weavers' wits were never more versatile in producing attractive loom effects. Skill in wholesale tailoring has made marvelous progress in recent years. No better evidence is needed than a critical inspection of ready-to-wear clothing made for them. There is a nicety of detail, a carefulness of finish, a symmetry of cut that denotes master minds and master hands. This not only has reference to their clothing, but also to their other different departments. Nowhere will you see so handsome a display of Gentlemen's Furnishing Goods, fine Shirts, Hats, Collars and Ties as Hechinger & Co. show.

Have You Looked at Their Stock of Smith & Stoughton

SHOES?

Recognizing the needs of their patrons, Hechinger & Co. arranged with Messrs. Smith & Stoughton, one of the most prominent manufacturers of fine Men's Shoes in the country, to sell their goods. See their window display of them and you will not wonder that although but thirty days elapsed since the first shipment arrived they are already doing the Men's Fine Shoe business of the town.

MILD FORM.

Very Few Deaths From Yellow Fever at New Orleans.

The Death Rate Has Fallen to About Ten and a Half Per Cent.

There are Nearly 600 Premises Under Surveillance in the City, and in the House of the House There Are From Four to Five Cases at Other Points.

NEW ORLEANS, Oct. 5.—For 24 hours, closing at nightfall, there has been a single death recorded in the office of the board of health. Sunday there had been 31 new cases reported and at seven o'clock Monday night 12 were reported since nine o'clock Sunday night. Sunday there were nearly 600 premises under surveillance, in which yellow fever had been declared to exist and in some of the cases there were one or five cases, yet not a single one had proved fatal in 24 hours. The result was that Monday night the death rate had fallen to a trifling excess over 10½ per cent, and the prospects for an early stamping out of the disease had been considerably brightened.

There is no indication that the sickness will assume an epidemic form. All fear that has disappeared and people who have their families at other points are beginning to make arrangements to bring them back.

At a special meeting of the board of health Monday afternoon it was decided that the ship bringing in line immigrants upon arrival here shall be detained at quarantine at the mouth of the river until further orders and a notice to this effect was sent to Collector Wilkinson.

Six days have passed since Ocean Springs has had any yellow fever, and at the present time only one case continues until Friday of the current week, the board of health will officially declare the Mississippi region free from fever. Ocean Springs was the first to contract the disease and will probably be the first to get rid of it.

Morgan of this city, and are still on board of that vessel. It is feared that the remaining 21 of the Nereus's crew have been lost on ice, as their vessel went to pieces soon after the captain and his wife and several of the crew, who were upon the revenue cutter Raker, left her.

LONDON, Oct. 5.—A special dispatch from Madrid, published here Monday afternoon, gives the substance of an interview between a newspaper correspondent and an unnamed member of the new Spanish cabinet. The latter is quoted as saying that Senor Sagasta will carry out the Cuban reforms proposed by Marshal Martinez de Campos ten years ago. These include the granting of autonomy to Cuba on condition that the island shall pay the Cuban debt, including the war debt, and accept Spain's customs tariff. "The new cabinet," the minister is said to have declared that Premier Sagasta would not consent to a customs union between the United States and Cuba, and that if the former were not satisfied Spain's navy was prepared to fight, as the Spanish navy was regarded equal in strength to the navy of the United States. FLOOD IN CHINA.

Sixty Villages, Containing Over 80,000 People, Destroyed.

The Number of Drowned Estimated at From 15,000 to 20,000.

Flooded District Within Twelve Miles of Peking, the Capital—Many People Killed—Properties Damaged—Many Injured.

TACOMA, Wash., Oct. 5.—The steamer Victoria brings news of the most disastrous floods that have visited China for many years. Six villages near Taichow, containing over 80,000 inhabitants, have been destroyed by floods and the people drowned or forced to flee.

There is no means of finding out how many thousands have been drowned, but the Chinese authorities at Peking estimate that the flooded district is within twelve miles of Peking, the capital of China. As the Chinese officials make very little stir when a calamity like this happens, but the proximity of the disaster has resulted in its being brought to the attention of the emperor, who has ordered that all possible relief be given.

Survivors from the villages nearest Peking have been allowed to remain as they can find in the city walls, but thousands are without protection against the rain, which continues to fall.

The distress of these people is most pitiable. Public spirited and wealthy men, such as the Chinese emperor, have been assisting the authorities in providing them with food.

The floods have greatly damaged a large number of estates belonging to Peking nobles. The unusual rains began July 23 and continued until August 10, when they finally ceased.

The crops in the flooded district were destroyed. The prefects, local magistrates and people of the flooded district are now suffering from lack of food.

Early in September high officials of Peking and Tien Sien suddenly forbade the slaughter of cattle, their object to appease the wrath of gods and stop the rain. Proclamations to this effect were posted. The result was to cut off the entire meat supply, which led foreign consuls to protest against the prohibition.

Early in September there was another uprising in Formosa. A battle took place which resulted in the killing of 300 rebels and many Japanese soldiers. Capt. Takeuchi, who commanded the Japanese, cut down 30 rebels with his own hands.

An explosion of a steam launch near Bangkok resulted in the drowning of ten persons and the fatal injury of six. Including the British consul and his wife, who died next day. This tragedy was closely related to the King of Siam.
